Tell the FDA to ban all flavored tobacco products

We call on the U.S. Food and Drug Administration to ban the sale of all flavored tobacco products, including flavored electronic cigarettes and cigars as well as menthol cigarettes. The evidence is clear: Tobacco companies target kids with flavored tobacco products, and flavors play a key role in getting kids to start and continue using tobacco. To prevent the tobacco industry from addicting a new generation of kids, the FDA must ban all flavored tobacco products.

Sign the petition calling on the FDA to end the sale of flavored tobacco products.
