

Tobacco Facts Scavenger Hunt or Trivia Game

Get everyone in your community familiar with tobacco facts with this fun activity. Use information you find on TFK's website or in the front pages of the KBD Guide to give you ideas and information.

Age Group: Any age.

Number of Participants: Anywhere from a few people to a large group

Time: 2-3 Weeks

Resources: Depending on your choice of event you may need poster board, a table, a game board, markers or items to give away as prizes.

Cost: \$10-\$30

Day of the Event:

- Set up your game. Your game could be similar to Jeopardy or perhaps Trivial Pursuit. Or maybe you decided to make a scavenger hunt and give people tobacco related clues for the things they needed to find.
- For a Jeopardy game create a large board with different categories and point values. Write your questions (remember in Jeopardy the question is really the answer) on the back of the point values. A participant will then pick a category and point value and have to answer the question on the back of the card.
- For a Trivial Pursuit game use the trivial Pursuit game-board but make your own tobacco related questions. Play with teams or as individuals.
- Or for a scavenger hunt find ways to relate the tobacco facts you have found with items the participants can find. Give a time limit and the first person back with the most items wins.
- At the end of the event distribute prizes and awards.
